CHAPTER 5

An Act to require The Essex County Board of Education to provide a French-language Secondary School

Assented to July 12th, 1977

WHEREAS the French-language advisory committee of ^{Preamble} The Essex County Board of Education has, since 1969, consistently recommended that a French-language secondary school be provided; and whereas, upon such recommendation having been rejected by the Board in the year 1974, the Languages of Instruction Commission of Ontario recommended that the Board provide such a school; and whereas The Essex County Board of Education, having initially rejected the recommendation of the Commission, subsequently agreed in April, 1975 to proceed with construction of a French-language secondary school, but on and after the 23rd day of February, 1976 ceased to proceed therewith; and whereas a mediator appointed by order in council No. 1452/76 recommended in February, 1977 that the Board build such school, but the Board, on or about the 8th day of March, 1977, decided not to build the school and it is now apparent that no such school will be provided at this time; and whereas there are sufficient French-speaking secondary school pupils resident in or adjacent to the area of jurisdiction of The Essex County Board of Education who have elected to be taught in the French language to warrant the provision of a French-language secondary school; and whereas the public interest, and in particular the interests of such French-speaking secondary school pupils, requires that such a school be constructed;

Therefore, Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

and following such meeting, the Board shall forthwith proceed with the planning and design of the building, obtain all approvals required for construction of the School and, upon receipt of such approvals, proceed in accordance with the policies of the Board to tender and contract for the construction of the School.

Notice

Minister

4.—(1) Where, in the opinion of the Minister, the Board fails to take any action or proceeding that it is required to take under section 3, the Minister may, by notice in writing to the Board, specify the action or proceeding that the Board has failed to take and direct the Board to take such action or proceeding within such time, being not less than ten days after the notice is sent, as the notice specifies.

(3) Where the site selected by the Minister under subsection 2 is owned by the Board, the Board shall be deemed to have given possession of the site to the Crown in right of Ontario for the purpose of the construction of the School.

Building and site vested in Board

(6) The expenses incurred by the Minister in taking any action or proceeding that the Minister is authorized to take under subsection 2 that are in excess of any moneys payable to the Board by way of grant by the Minister in respect of the construction of the School are a debt due to the Crown by the Board and may be recovered with costs, by action in a court of competent jurisdiction.

Where no
person
entitled
to residue

(2) Nothing in this section prejudices any right in respect of any residue not expressly disposed of to which, if this Part had not been passed, an executor would have been entitled where there is not any person who would be entitled to the testator's estate under Part II in case of an intestacy. - (c) a will so far as it exercises a power of appointment, if the making of the will conforms to the law governing the essential validity of the power. *New*.

38. A change of domicile of the testator occurring after a will is made does not render it invalid as regards the

manner and formalities of its making or alter its construction. R.S.O. 1970, c. 499, s. 19 (5).

Construction
of will

39. Nothing in sections 34 to 42 precludes resort to the law of the place where the testator was domiciled at the time of making a will in aid of its construction as regards an interest in land or an interest in movables. R.S.O. 1970, c. 499, s. 19 (6).

used in
relation
to land

shall be treated, notwithstanding any rule of that law to the contrary, as a formal requirement only.

Formal
requirements
of law

(2) In determining for the purposes of sections 34 to 40 whether or not the making of a will conforms to a particular law, regard shall be had to the formal requirements of that law at the time the will was made, but account shall be taken of an alteration of law affecting wills made at that time if the alteration enables the will to be treated as properly made. *New*.

hereinafter called the "Contractor",

OF THE SECOND PART.

WHEREAS the Contractor has been operating a bus transportation system for the Corporation from the year 1948 and is currently operating such bus transportation system pursuant to the terms of an Agreement between the Corporation and the Contractor dated the 13th of October, 1966, which Agreement and the Franchise granted pursuant thereto terminate on the 31st of December, 1977.

AND WHEREAS the parties hereto are desirous of entering into a further agreement to provide for the continuation of the exclusive Franchise granted to the Contractor by the Corporation on the terms and conditions hereinafter set forth.

WITNESSETH THAT in consideration of the premises and the covenants and agreements hereinafter contained and other good and valuable consideration, the parties hereto agree as follows:—

1. Subject to the due performance by the Contractor of its obligations under this Agreement, the Corporation hereby grants to the Contractor the exclusive right, franchise and privilege to maintain and operate buses for the conveyance of passengers within the limits of the City of Chatham for a period of 10 years from and including the 1st day of January, 1978 to and inclusive of the 31st day of December, 1987 and for such purpose to maintain, lease, own and operate buses and other vehicles operated by gasoline or other power together with any rolling stock and equipment necessary and incidental thereto, but upon the terms mentioned in and authorized hereby and further for such purpose to use, keep and operate such buses and vehicles upon the streets of the City of Chatham. The Franchise hereby granted relates only to the picking up, conveyance and discharge of passengers within the limits of the City of Chatham and does not extend or apply to the operation of buses operating between any point within the City of Chatham and points outside the City of Chatham where passengers are not conveyed from one point within the City of Chatham to another and does not apply to passengers conveyed within the City of Chatham by taxicab or ambulance. Without restricting the generality of the foregoing, it is understood and agreed that the Contractor shall have the exclusive right to pick up, convey and discharge students within the limits of the City of Chatham and the right to enter into any contract for the conveyance of students within the limits of the said City of Chatham, provided however, that The Kent County Board of Education and The Kent County Roman Catholic Separate School Board each shall have the right to pick up, convey and discharge students within the City of Chatham who are in attendance at their schools on buses owned, operated or sub-contracted for by the said Boards on condition that it is done without charge to such students.

2. During the period of this Agreement, the Contractor covenants and agrees to maintain and operate a transportation service as required by the Corporation from time to time upon such streets and upon such routes and upon such schedule as to days of the week, daily service, frequency of service, stopping places and fares as required by the Corporation, and as the Corporation shall by resolution determine and in the meantime, on such streets, upon such routes and upon such schedule as are set forth in the schedule presently on file with the Clerk of the Corporation and initialled by both parties; provided that the Contractor shall not be required to accept routes over unpaved streets for more than a period of one year and provided that the mileage per day shall not be reduced below what will average 125 miles per bus per day and further provided that the minimum requirements set forth in Paragraph 14 hereof shall be maintained and satisfied. The Contractor shall also provide and operate special buses at a frequency of service and at a cost to the Corporation to be mutually agreed upon and failing agreement, to be settled by arbitration to be provided for by Section 20 hereof. The Corporation agrees to consult with the Contractor with respect to proposed changes in routes and schedules but the decision of the Corporation in this regard shall be final. The Corporation will give the Contractor reasonable notice of any changes in routes and schedules and the Corporation shall cause any such changes to be properly advertised and posted at its expense.

3. All vehicles used or operated under the authority of this Agreement shall be at all times fully equipped with approved safety devices and shall be kept and maintained in first class, serviceable condition and present at all times a good appearance and all vehicles while in operation shall be kept in a clean, sanitary condition. Notwithstanding the generality of the foregoing, such buses shall be lighted and heated at such hours and at such periods of the year as may be necessary.

4. The Contractor shall before operating any vehicles under the authority of this Agreement, obtain from the Board of Commissioners of

Police for the City of Chatham, a license for each vehicle and shall pay the requisite fee for such license or licenses. The Contractor shall maintain such licenses and permits as may be necessary to carry out its obligations under this Agreement.

5. The Contractor will indemnify and save harmless the Corporation from any and all claims or demands made or brought against the Corporation by any person or persons for damages arising out of the maintenance and operation of buses by the Contractor for the conveyance of passengers within the limits of the City of Chatham or other operations carried on by the Contractor within the limits of the City of Chatham, save and except those claims or demands which arise from the negligence of the Corporation, its servants and agents. The Contractor shall maintain public liability insurance and property damage coverage, inclusive in the minimum amount of \$5,000,000.00 for any one occurrence and shall file proof of such insurance with the Clerk of the Corporation, provided however, that the amount of such insurance coverage shall be reviewed annually by the parties and shall be subject to increase as may be mutually agreed upon to provide reasonable coverage for the parties.

6. The Corporation agrees to pass such by-laws as the Corporation in its sole and untrammelled opinion and discretion deems to be essential to conduct a proper transportation system in, over and upon the streets or highways within the limits of the City of Chatham.

7. The Corporation shall during the terms of this Agreement by by-law provide sufficient bus stops as the Contractor may require to conduct its business of carrying passengers as may be agreed upon between the parties hereto and the Corporation shall adequately mark and maintain said bus stops at its expense. The Corporation shall provide for the reservation of such bus stops for the use of the buses of the Contractor during scheduled hours and shall prohibit parking on such reserved spaces during the said scheduled hours. The Corporation shall post such signs and notices at bus stops as shall be required by the Corporation or as shall be mutually agreed upon.

8. The Corporation shall during the term of this Agreement by by-law regulate traffic in the City of Chatham to enable the Contractor to operate its buses efficiently. The Corporation agrees to assist the Contractor in preventing railroads from blocking streets or highways for periods of over 5 minutes at one time except as permitted by law.

9. The Corporation agrees to keep all streets and highways upon which the Contractor is operating regular routes under the terms hereof in a reasonably good state of repair at all times and if by reason of unusual weather conditions or other circumstances, any of such streets or highways become impassable, then in such event, the Corporation agree to act as promptly as is possible in making such streets or highway passable. Until such condition as caused by unusual weather conditions or other circumstances is remedied, the Contractor may on notice to the City Manager of the Corporation, re-route its buses over such other streets or highways in the City of Chatham as in the opinion of the Contractor may be deemed advisable.

10. During the term of this Agreement or until the termination thereof the Corporation shall not in any way depreciate the right, privilege or franchise hereby granted, and shall not grant or permit to be granted to any other person, partnership, firm or corporation, any right, privilege, license or franchise to construct, maintain, use or operate any lines of railway for local passenger trips, or any bus, jitney or other similar vehicles for the purpose of transporting passengers for gain or hire, the operation of which will come into competition with the transportation system of the Contractor.

Provided that any such grant to operate a bus or jitney or other similar vehicle between any points in the City and any locality outside of the City not served by the transportation system of the Contractor shall not be deemed to depreciate the said right, privilege or franchise. In no case shall any bus, jitney or similar vehicle be permitted to take on passengers within the City and discharge the said passengers within the City. Provided further that this section shall not apply to any ordinary cabs or taxicabs kept for hire and used for transportation not over a fixed route, at fares fixed by the Board of Police Commissioners of the City of Chatham. In the event of any transportation of passengers over which the Corporation has no power or control, then the Corporation is not to be held liable for any loss or damage sustained by the Contractor by reason thereof.

11. The rate of fares for conveyance of passengers shall be,

- (a) Adult Fare—.30¢ cash or 4 tickets for \$1.00.
- (b) Children being transported to and from Elementary and Secondary Schools on school days only—.20¢ cash or 6 tickets for \$1.00.
- (c) Children under 12 years in age, at all times—.20¢ cash or 6 tickets for \$1.00.
- (d) Senior Citizens at all times—.20¢ cash or 6 tickets for \$1.00.
- (e) Children under 5 years of age—free when accompanied by an adult person.

For the purposes of this Agreement, a Senior Citizen is one who has attained the age of 65 years and who produces an identification card identifying him as such a person.

The Contractor shall collect the fares in accordance with the foregoing schedule on behalf of the Corporation and all revenue collected for transportation provided pursuant to the terms of this Agreement shall be the property of the Corporation and delivery of such revenue shall be made when and where the Corporation may require.

The fares in accordance with the foregoing shall not be changed, altered or otherwise varied by the parties hereto except by Council of the Corporation as expressed by resolution.

12. The Corporation covenants to pay to the Contractor, a price for each mile its buses are operated in providing the transportation service required hereunder (excluding mileage for special buses and chartered trips within the City) determined as hereinafter set forth. The mileage to be paid for shall be determined on a basis whereby the distances of the routes travelled are logged by both parties and in default of agreement to be settled by arbitration as hereinafter set forth. The total number of trips over such routes are counted and the mileage shall be determined by multiplying the mileage distance of the routes by the number of trips made over each of such routes. Payments on account of the price per mile shall be made every two weeks according to the mileage logged during the immediately preceding two weeks.

The price per mile shall be determined by January 1 and July 1 of each year by adding to the cost as determined by audited statements dated December 31 and June 30, immediately preceding based on the cost factors listed under Column "Item" in Schedule "A" hereto, 3.3¢ per mile, provided however, that in lieu of the actual cost of wages as set forth in such schedule,

the estimated actual cost of wages for the succeeding six month period shall be used in the determination of the price per mile. When the audited statement at the end of each six months has been prepared and released, an adjustment shall be made so as to bring the payments made over the previous six months to the actual cost per mile plus 3.3¢ per mile. Any payment due to either party on such adjustment shall be made within thirty days after demand therefor. Semi-annual auditor's statements of the Contractor's operations under this Agreement shall be furnished to the Corporation within 30 days from the end of the six month period immediately preceding and all business records of the Contractor pertaining to operations by the Contractor under the terms of this Agreement shall be made available if requested, by the Corporation to the Corporation or its auditors.

The operating costs and depreciation charges in respect of the special buses referred to in Paragraph 2 of this Agreement shall be excluded in calculating operating costs per mile, but these costs and charges shall be billed to and paid by the Corporation as may be mutually agreed upon.

If after the payments of the stipulated price per mile is made to the Contractor as herein provided there then remains a surplus of receipts from fares in any calendar year. The surplus up to what would amount to 3¢ per mile of operation (in respect of the amount of mileage upon which the Contractor is being paid as set forth in this paragraph) in such calendar year shall be and remain the property of the Corporation and should there be any surplus over the amount as is reserved to the Corporation, such additional surplus shall be divided equally between the parties.

13. The Contractor covenants and agrees that prior to entering into any new employment contract with its employees which might affect the terms of this Agreement or the payments to be made by the Corporation to the Contractor hereunder, the Contractor will obtain the approval of the Corporation to the terms of such new employment contract. The Contractor further covenants and agrees that salaries for management which might affect the terms of this Agreement or the payments to be made by the Corporation to the Contractor hereunder, shall not be changed except in accordance with Paragraph 21 hereof.

14. The Contractor covenants and agrees to put in service a minimum of seven modern buses in good condition and to have ready at all times for service, three spare buses also in good condition; the Contractor covenants and agrees to expand and extend its service to meet all requirements of a passenger transportation system within the limits of the City of Chatham from time to time and for this purpose to obtain such further new buses subject to an allowance of reasonable time to obtain delivery thereof.

15. The performance under this Agreement by the Contractor as to the service to be provided by it shall be excused during such time as performance may be rendered impossible by strike, disaster, act of God, or act of the Corporation or other cause beyond the control of the Contractor.

16. The Contractor shall not assign this Agreement and/or sell its capital assets which are required for the due performance of its obligations hereunder to any person, corporation or entity without the express consent of the Corporation as expressed by resolution of Council.

17. In the event that either party does not fully perform its obligations hereunder and fails to correct the default within 10 days of receiving a written demand to do so or in the event that the Contractor fails to operate the passenger transportation system and fails to correct that default within 72 hours of receiving a written demand to do so and provided that any such default as herein set out is not exonerated by virtue of Paragraph 15 hereof

then the other party may forthwith terminate this Agreement by giving the defaulting party a notice in writing to this effect.

18. Either Party may terminate its obligations under this Agreement after December 31st, 1978 or any December 31st thereafter upon giving at least six months' notice in writing to the other Party prior to the December 31st of the year in which the Agreement is to be terminated. If this Agreement is terminated by the Corporation prior to December 31st, 1987, except where terminated by reason of default of the Contractor, the Corporation shall, if requested by the Contractor, purchase all buses owned by the Contractor, used in the City service under this Agreement, at their then book value as established by the auditors' records prepared for the Contractor at the time. The Contractor agrees that in its accounting, its buses shall be depreciated ten percent of cost per annum for a period of ten years from the date of purchase of each bus, and that when, in respect of each bus, the ten-year period has expired, no charge for depreciation of such bus shall thereafter be included in its operating costs.

19. The Corporation agrees to apply to the Province of Ontario for such powers as will enable it to do, perform and carry out each and every of the Agreements and covenants on its part as herein contained.

20. If at any time during or after the term of the Agreement any dispute, difference or question shall arise between the parties hereto, or any of their representatives, touching this Agreement, or any part thereof, or the construction, meaning or effect of this Agreement or any part thereof, or anything herein contained, or the rights or liabilities of the parties, or their representatives, under this Agreement or otherwise, in relation to the premises, and if said matter cannot be settled by the parties hereto by negotiation, then every such dispute, difference or question shall be referred to a single arbitrator, if the parties agree upon one, otherwise to three arbitrators, one to be appointed by each party to the reference, and the third arbitrator to be appointed by the other two arbitrators, in writing before they enter upon the business of the reference. If either party shall refuse, or neglect to appoint an arbitrator within thirty days after the other party shall have appointed an arbitrator, and shall have served a written notice upon the first mentioned party requiring such party to make such appointment, then the arbitrator first appointed shall, at the request of the party appointing him, proceed to hear and determine the matter in difference as if he were a single arbitrator appointed by both parties for the purpose and the award or determination which shall be final and binding on the parties herein, their successors and assigns, and shall not be subject to appeal to any Court or Courts.

21. The parties agree that the percentages and the allocation for management provided in Schedule "A" hereto may be changed by mutual agreement, and in the event that either party desires a change in any of such percentage figures or allocation to which the other party does not agree, the proposed change in the percentage or allocation shall be submitted to and settled by arbitration as provided for in Section 20 hereof. The allowance (which is set at 3.3¢ per mile as set forth on Schedule "A" and referred to in Paragraph 12 hereof) may be changed by the mutual agreement of the parties hereto but it is not an item which may be submitted to arbitration in default of agreement thereon.

22. The Corporation and the Contractor agree that the Contractor, its servants, agents and employees shall under no circumstances be deemed agents or representatives of the Corporation and except as the Corporation may specifically authorize in writing shall have no right to enter into any contracts or commitments in the name of or on behalf of the Corporation or to bind the Corporation in any respect whatsoever.

23. This Agreement shall be governed in accordance with the laws of the Province of Ontario.

24. Any notice required or permitted to be given under this Agreement shall be in writing and shall be given by any means reasonably calculated to reach the other party, including without limiting the generality of the foregoing, telegram, cablegram or prepaid mail addressed at its address. Such notice if given by telegram or cablegram shall be deemed to have been received on the day following the dispatch thereof and the notice given as aforesaid by prepaid mail shall be deemed to have been received not later than the second day following the mailing thereof. For the purpose of this Agreement, the address of the Corporation shall be as follows:

City Hall,
P.O. Box 640,
Chatham, Ontario,

and the address of the Contractor shall be as follows:

165 King Street East,
Chatham, Ontario.

Either party by notice in writing given as hereinbefore provided may change its address for notice hereunder and such address as so changed shall be deemed to be the address of such party for the purposes of notice hereunder.

25. The Contractor shall not be prohibited by this Agreement from conducting its operations by way of charter bus operation within the City of Chatham, provided however, that such charter bus operation shall not in any way affect or be in competition with any services to be provided by the Contractor under this Agreement.

26. This Agreement shall be binding upon and enure to the benefit of the parties hereto and their respective successors and assigns.

IN WITNESS WHEREOF the parties hereto have hereunto affixed their corporate seals duly attested by the hands of their proper officers.

CHATHAM, Ontario
May 29, 1976

To the Reeve and Council
of the Township of Dover.

Gentlemen:

In accordance with instructions, I have made an examination of banks along the McFarlane Relief Drain, the Rivard Drain, the Gowrie Drain, the Toulouse Drain, the Myers Drain, the Boyle drain, the Hind Relief Drain, Richmond Cut, the Hind Outlet Drain, River Thames, the Fryer Drain and number one branch, the Little Bear Creek Drain banks along the southerly side of the Chenal Ecarte, the southerly side of the River Sydenham, and banks along the easterly side of Lake St. Clair which form protection for the low lying lands comprised in a number of pumping schemes (the Bechard Mechanical Works, Big Pointe Pumping Works Numbers 1 and 2, the Bradley Pumping Works, the Cadotte South Pumping Works, the Crawford Pumping Works, the Dewar Pumping Works, the 11th Concession Pumping Works, Front Concession Mechanical Works, Justin Griffore Pumping Works, Letourneau Pumping Works, Myers Pumping Works, the 9th Concession Pumping Works, Raymond Pumping Works, the Rose Pumping Works, the Stephenson Pumping Works, the Terry Pumping Works, the Toulouse Pumping Works, the 12th Concession Pumping Works and the Verhaege Pumping Works) situated along the westerly side of the Township between the River Thames and the River Sydenham. Due to high water levels in Lake St. Clair that has been occurring since 1973 it was necessary to carry out emergency repairs and improvements to these banks to protect said pumping schemes. In many instances where low lying lands were threatened, it was necessary to raise embankments and strengthen same on a temporary basis to prevent widespread flooding. The work carried out and expenditures in connection therewith may be summarized as follows:

1. McFarlane Relief Drain Embankment

Raising the existing embankment, on the northeasterly and northwesterly sides of the drain from a point approximately 1000 feet northwest of the pumping plant of the Stephenson Pumping Works, to a point near the line between Lots 2 and 3, along the northerly

1st. The report is hereby adopted, and the drainage works as therein indicated and set forth are hereby authorized and shall be completed in accordance therewith.

2nd. The Corporation of the Township of Dover may levy in one year the sum of \$Fifty Three Thousand, Two Hundred (\$53,200.00) -- xx/100 Dollars being the funds necessary for the drainage works not otherwise provided for (or being the municipality's portion of the funds necessary for the drainage works); provided that such sum shall be reduced by the amount of grants and commuted payments with respect to lands and roads assessed.

3rd. For paying the sum of \$46,425.00, the amount charged against such lands and roads for benefit, apart from lands and roads belonging to or controlled by the municipality, the following total special rates over and above all other rates shall be assessed, levied and collected (in the same manner and at the same time as other taxes are levied and collected) upon and from the undermentioned parcels of land and parts of parcels and roads in one year after the passing of this by-law, provided that no greater amount shall be levied than is required after taking into account and crediting the amount of grants under subsection 3 of section 64 of The Drainage Act, 1962 - 63, the amount of moneys paid under a by-law passed under subsection 4 of section 40 of that Act and commuted payments with respect to lands and roads assessed.

Gentlemen:

I am pleased to present my report on the construction of the Innerkip Drainage Works. This drainage works involves the reconstruction, improvement to, consolidation of and/or extension of the Yeo, Thomas, Hall and Joe Sim Drains presently serving parts of the Police Village of Innerkip plus other lands in Lots 9 to 14, Concessions 16 and 17 in the Township of East Zorra-Tavistock. As well new branch drains are involved to better serve the affected lands and roads.

This report was prepared in accordance with instructions received from your Clerk with respect to a motion of the Township Council, said Council being responsible for both the maintenance and reconstruction of existing municipal drains and for obtaining improved road drainage.

The attached plan, profile, and detail Drawings No.'s 1 to 8, Job No. 7367, specifications and the instructions to tenders form part of this report. They show and describe in detail the location and extent of the work to be done and the lands which are affected.

Very few records exist of the Thomas, Yeo and Hall (and Gillespie Drain -upstream of the Hall Drain) but the drawings numbered 1 and 2 show the approximate locations of same. The Thomas Drain runs generally easterly from near the intersection of Stratford and Blandford Streets within Innerkip to a catch basin on the east side of Queen Street at which point waters being carried by the drain are allowed to find an outlet in the limestone which underlies the majority of the village at a relatively shallow depth. The Yeo Drain commences in Lot 12, Concession 16 and runs generally southerly and easterly to a point in Lot 10, Concession 17 where, similar to the Thomas Drain, the conveyed waters find an outlet in the limestone strata. (The Gillespie Drain commences in the west part of Lot 13, Concession 17 and runs generally south-easterly to an outlet in the Hall Drain in the south-east corner of

Lot 11, Concession 17.) The Joe Sim Drain the most recent of the drainage works serving the affected lands was constructed in 1964 and lies along Young Street from Coleman Street east to east of Queen Street. The Hall Drain runs southeasterly through built up portions of Innerkip, providing an outlet for the Joe Sim Drain near Young Street and continuing on in a southeasterly direction to an outlet in the Thames River.

I have made an examination of the drainage systems in the affected areas and have found many problems either directly or indirectly related to the functioning of the systems. I found that the Hall and Thomas drains were sized to serve primarily rural lands (and at a level of service below that required by recent design) and are not capable of providing the expected drainage outlet for all adjacent and tributary lands. As a result, there are occasions during any year when adjacent lands and roads are submerged with water. Tributary lands to these drains can not get an adequate outlet and as a result some areas remain undrained thereby adversely affecting the performance of sanitary waste disposal systems. Also the performance of the local roads is reduced by the lack of a drainage outlet. Because of the lack of drainage as described and because of the outletting of two drains (Yeo and Thomas) into rock strata potential sources of problems with water supply systems which originate in the limestone are created. Areas that could be developed for residential or other land uses are faced in many cases with either no outlet or else with an undersized outlet traversing the lands that could be developed.

It is therefore my recommendation that a new drainage system for the village of Innerkip and tributary lands be constructed to eliminate or reduce the above problems.

My proposed drainage scheme involves the construction of the following systems. Firstly, I recommend that a new drain, the Young Street and Mill Side Road Branches, be constructed from the point where the Yeo Drain intersects the north limits of the Mill Side Road (Co. Rd. 33), that it run easterly along but north of the north limits of the County Road to an intersection with the Hall Drain, from this point generally following the route of the Hall Drain to Young Street and from here run along the south side of Young Street to an outlet in the Thames River. This drain would provide an improved outlet for the Yeo and Gillespie Drains serving agricultural lands to the north, would provide an outlet for future residential lands north of the Mill Side Road and along Young Street, would create an adequate sized drain through this part of Innerkip to reduce flooding along the path of the existing Hall Drain and

would provide the required outlet for any other existing or proposed drains required to serve existing residential lands including the Joe Sim Drain. The second drainage system I recommend to be constructed commences at the rock outlet of the Yeo Drain (the Balsam, Blandford, Burton Street and James Street Branches) in Lot 10, Concession 17, runs easterly to Burton Street, along Burton Street to Blandford Street (Co.Rd. 4), north along Blandford Street to Balsam Street and east along Balsam Street to an outlet in the Thames River. There would be three extensions to this drain. The first is proposed south along Blandford Street to the corner of George Street, the second, west along Balsam Street from Blandford Street to Coleman Street and then south along Coleman Street to Briar Drive and the third involves a branch to the south along the unopened James Street up to the rock outlet of the Thomas Drain together with a short extension further south on James Street. This drain and extensions thereto would eliminate the emptying of the Yeo and Thomas Drains into the rock, would provide an outlet to residential lands west of Blandford Street presently lacking such, would reduce or eliminate the flooding of lands east of Blandford Street, would relieve and also provide an outlet for the Thomas Drain, would provide an outlet for future residential lands on both sides of Balsam Street, and would provide an improved outlet for the lands of and adjacent to the public school. The remaining system, I recommend, to be constructed, the Main Street Branch, involves a drain along Main Street from the intersection with the unopened James Street easterly to an outlet in the Thames River. This branch will reduce existing outlet problems along Main Street, provide a potential outlet for a small acreage of developable lands immediately adjacent to Main Street and will also serve to intercept shallow ground water movement, affecting lands in the village in this area.

The proposed work, therefore, consists of approximately 17,402 lineal feet of closed drain including approximately 10,942 lineal feet of 10 to 24 inch diameter concrete field tile, 4,275 lineal feet of 24" to 42" concrete sewer pipe and 2,185 lineal feet of 8" to 54" corrugated steel pipe and 56 concrete catch basins, manholes and junction boxes.

In accordance with Section 8 of the Drainage Act, R.S.O., 1970, I determine the allowances payable to owners entitled thereto as follows:

Repairs or improvements rendered necessary to any road culvert or bridge by the performance of this work shall be made by and at the expense of the road authority responsible for the structure.

After completion, this drain shall be maintained by the Township of East Zorra-Tavistock at the expense of all lands and roads assessed in the schedule of assessment and in the same relative proportions, until such time as the assessment is changed under the Drainage Act, R.S.O., 1970.

The existing Hall, Yeo (south of the county road) and Thomas Drains shall hereafter be considered as private drains and the maintenance of such shall be at the discretion of the affected landowner.

The existing Joe Sim Drain is herein incorporated as part of the Innerkip Drainage Works, thereby consolidating the remaining drainage works in the built up portion of Innerkip with this proposed works. In accordance with section 15(2) of the Drainage Act, R.S.O., 1970. I have made an allowance in the assessments to the owners of lands affected by the Joe Sim Drain for their prior outlet assessment of that drainage works. The future maintenance of the Joe Sim Drain shall be at the expense of all lands and roads assessed in the schedule of assessment herein and in the same relative proportions until such time as the assessment is changed under the Drainage Act, R.S.O. 1970.

Should additional and future drainage works, constructed under the Drainage Act, R.S.O., 1970, be required along any lands or roads in the built-up portions including all lands covered by a registered plan of the village of Innerkip if defined to be in the watershed of this report, I recommend that all lands assessed in the schedule of assessment to this report except for lands considered to be agriculture at the time of the future report be assessed for the costs of such further works except for special assessments for benefit to the affected lands and roads in the new report (s). Any outlet assessment against an affected local road (s) shall be distributed amongst all local roads assessed herein (excluding county roads).

It shall be the full responsibility of any affected owner to relocate or replant any legal survey bars affected by the construction of this drainage works. If requested, the engineer will reference any bar that he is made aware of, prior to construction, to possibly facilitate the owners replanting of same.

Respectfully submitted,

K. A. Smart, P. Eng.

SPECIAL PROVISIONS
FOR
INNERKIP DRAINAGE WORKS

S.P.1. APPLICABLE SPECIFICATIONS

The General Conditions, Open Drain, Tile Drain and Storm Drains and Appurtenances sections of the Specifications for Construction of Municipal Drainage Works, February 1974 hereinafter referred to as the Specifications shall apply to the construction of this drain except where superseded by these Special Provisions or by notes on the attached drawings.

S.P.2. TENDER

Tenders to be entitled to consideration must be made on the form provided therefore and shall be enclosed in a sealed opaque envelope which shall be addressed to:

Corporation of the Township of East Zorra-Tavistock
c/o Mr. J. Killing, Clerk-Treasurer
HICKSON, Ontario

and shall be endorsed "Tender for Innerkip Drainage Works".

The Township reserves the right to reject all or any tenders received.

Prices for each item as required must be legible. The Tender must be signed by an officer of the company, designating his position and executed with the company seal. In the case of an individual trading as a company, the signature of the person signing the Tender must be witnessed.

All of the blanks in the Tender Form shall be filled in.

An extra copy of the Form of Tender is included for the contractor's own records.

Tenders that are incomplete, conditional, illegible, obscure, or that contain additions not called for, reservations, erasures, errors, alterations or irregularities of any kind or are not properly signed may be rejected as informal.

The tender shall be accompanied by a security in the amount equal to ten per cent (10%) of the amount of the tender.

Security may be either cash, negotiable government bonds, or a certified cheque.

Tender security shall be made payable to the Owner.

S.P.3. EXAMINATION OF THE SITE

For the information of all tenderers and at a time to be indicated on the Tender advertisement and forms, but prior to the closing of tenders, test holes will be dug on the site by the municipality. No additional payment will be allowed for additional work resulting from unfavourable soil conditions other than solid rock excavation with the exception of the costs of supplying and installing rubber gaskets along the affected lengths of pipe. This supersedes the provisions of Section S.21. paragraph 3 and T.10.

S.P.4. ROADWAY CROSSINGS

Applicable sections of the Specifications, eg. G.13., D.10., T.12. and S.3.3. are superseded in that all work along or across roadways are to be governed by the Typical Sections and notes, etc. on the attached drawings. Asphalt roadway surfaces shall be reconstructed by the authority having jurisdiction over the affected road.

S.P.5. TESTS

The township shall be responsible for the costs involved in testing only pipe or tile materials and if tests are requested no more than 3 lengths of any or each size of pipe or tile will be submitted for testing, unless in the opinion of the engineer, faulty materials are involved and additional tests are warranted.

S.P.6. BACKFILLING OF TRENCHES

Section S.3.2. of the Specifications shall be supplemented and superseded in part by the notes and details on the drawings of this Contract.

S.P.7. CATCH BASINS, MANHOLES AND APPURTENANCES

Sections S.10.3. to S.10.7. inclusive of the Specifications are superseded in that all applicable products of Oaks Precast Industries Ltd. (or equals) may be substituted for those specified. Also welded frames and grates, if approved by the Engineer, may be substituted for the cast-iron frames and grates in those locations described on the drawings.

S.P.8. PRIVATE DRAIN CONNECTIONS

Private drain connections will not be required except where necessary to replace an existing connection into an existing drain herein being replaced, damaged or cut off. Where required, the construction of Private Drain Connections, shall be in accordance with the general note on the drawings and the payment for each will be, including joints, on a lump sum basis as established on this Tender form. If lengths in excess of 25 feet are required for any connection, that amount of the connection in excess of 25 feet will be paid on a time and materials basis. Saddles rather than tees or the use of well constructed and grouted simple insertions into the pipe may be used for making the connection if approved by the engineer. Connections described to be made by the drawings will not be paid under this category as the tender provides for such connections. Note that the drawings call for rigid materials on granular bedding with cemented joints for all connections.

S.P.9. SOLID ROCK EXCAVATION

Should solid rock be encountered and normal trench excavation methods are not capable of removing the rock the contractor will be reimbursed on a time and materials basis for the costs in excavating the rock plus for his net loss of production due to time lost during rock excavation. The method of removing solid rock, if encountered, must be approved by the engineer and all unit costs in doing such work must be approved by the engineer prior to commencement of operations.

S.P.10. RESTORATION

Section S.14. of the Specifications is superseded in that all lawn areas on private lands disturbed or damaged by construction must be fully restored to an original condition. The trench backfill must be sufficiently compacted to reduce future settlement and shall be covered over with 6" of approved topsoil; and then shall be levelled, graded and covered with approved nursery sods (Merion or Kentucky Blue Grass or equal) by an approved landscape sub-contractor or equal if approved by the Engineer.

All field areas if disturbed shall have the topsoil stripped back and then replaced upon completion of construction.

All garden areas shall have a minimum of 12 inches of topsoil placed over areas disturbed by construction.

All customarily travelled areas (lanes or roads) shall be re-surfaced with 12 inches of pit-run gravel base (Granular 'B') with maximum stone size of 4" and 6" of crushed gravel surface (Granular 'A') except where noted differently on the drawings. All granular shall be compacted in place using equipment described in the drawings.

Gravel shoulders shall be restored with 6" of compacted crushed gravel (Granular 'A').

All shrubs, plants, ornamental trees, clothes-line poles, etc., if necessary to move shall be temporarily relocated during construction and shall be replaced in their original location during restoration.

Grass-seed mixture used must be equal to commercial lawn seeds and must be approved by the engineer in advance.

S.P.11. GABION STRUCTURES

The Gabion baskets used shall be "Heavily Galvanized Gabions-River Type" as available from Maccaferri Gabions of Canada Ltd. All wire used for binding shall be as supplied by the Manufacturer (0.086" diameter).

ASSEMBLY Upon delivery each bundle shall be opened and each unit unfolded.

The sides, ends, and diaphragms are to be lifted into vertical position and the four corners are to be wired together and the diaphragm edges to the gabion sides.

INSTALLATION Level the base where the gabions will be placed to a smooth finish and the right elevation.

Wire each unit securely to the adjacent units along the top and vertical edges prior to placing stone. Stretch gabions before filling if necessary.

FILLING Use a 3" to 8" durable hard stone as supplied by Forwell's of Kitchener or equal.

Choice of equipment, front end loader, gradall or backhoe etc. is up to the contractor but voids are to be kept to a minimum. Hand placement will be necessary at times. For the 36" deep gabions only, the baskets are to be filled in 1 foot lifts and between each lift connecting wires are to be placed in both directions between opposite sides and looped around two meshes at each end.

After filling is complete, the top is to be folded shut and wired to the ends, side and diaphragm.

Empty baskets placed on top of a completed row must be wired to the filled gabions at front and back.

S.P.12. SACKED CONCRETE RIP-RAP PROTECTION

A sacked concrete protection shall be built around the drain outlet as indicated on the drawings. Burlap bags containing a volume of one (1) cubic foot of concrete when filled shall be used and shall be hand placed. Dry concrete is not permitted.

S.P.13. WINTER WORK

If any work is started and not fully completed prior to winter or frost, all areas partially or fully affected by the construction shall be temporarily or fully restored in accordance with the specifications and drawings of this contract with the exception that no sodding will be required until the following spring. However, final restoration will have to be attended to as soon as conditions permit during the ensuing year. All temporary and final restoration will be at the contractors expense. Particular attention must be given to the prevention of ponded surface waters, of interference with snow plowing operations, of soft or muddy laneways and roadways and of damage to any materials used or to be used on the project if work ceases due to winter conditions. No additional payment will be provided on account of increases in costs of materials or labour over, or resulting from the winter period. If construction on formerly paved roadways is not completed in time to allow the authority to resurface the road, the

contractor of this contract will be required to scarify, regrade and compact the upper portions in the following spring. The maintenance of all roads, over the winter period shall be the road authority's responsibility however.

S.P.11 EXTRA WORK

Section G.7. of the General Conditions is partially superseded in that if the contractor undertakes extra work as directed by the engineer he will be paid in accordance with the unit price for such work evident from the tender forms if applicable or alternatively if such unit price is not evident, he will be paid on a time and materials basis. In case of time and materials work the contractor will be allowed a further 17% of the total cost for his involvement. Such allowance shall be compensation in full for management, overhead, profit, etc.

If the quantity of any items in the tender form changes by more than 10% from the estimated amount a re-negotiated unit price may be used if mutually agreed by the engineer and the contractor. As well if the quantity increases by more than 10% the contractor shall be entitled to the allowance of 17% on the quantities in excess of the 10% amount

T. TILE DRAIN

T.1. TILE

The Contractor is to state the type and manufacturer of the tile which he proposes to use and is to be prepared to submit alternative prices for concrete or clay tile in the sizes available, if required.

Standard clay drain tile shall meet all A.S.T.M. specifications, as set out in Designation C4-62 and Designation C498 with the exception of the Absorption Factor and the Freeze and Thaw Test. Extra quality drain tile and heavy duty drain tile shall meet all specifications as set out in Designation C4-62 and Designation C498.

Concrete drain tile shall meet all A.S.T.M. specifications as set out in Designation C412 with the exception that the nominal length of drain tile 5 to 12 inches diameter inclusive shall not be less than 12 inches and that tile of 12 to 24 inches in diameter inclusive shall have nominal lengths not less than the diameters.

Where any of the above referred to standards are amended or superseded, such amendments or revisions shall apply.

T.2. STAKES

Stakes are set along the course of the drain at intervals of 100 feet.

Bench marks have been established, which are to govern the elevations of the drain. The location and elevations of the bench marks are given on the plan and profile drawings.

The Contractor will ensure that the stakes are not disturbed unless approval is obtained from the Engineer.

T.3. LINE

The drain shall run in as straight a line as possible throughout its length, except that at intersections of other water courses or at sharp corners, it shall run on a curve of at least 50 foot radius. The new tile drain shall be constructed at an offset from and parallel with any ditch or defined watercourse in order that fresh backfill in the trench will not be eroded by the flow of surface water. The Contractor shall exercise care not to disturb any existing tile drain or drains which parallel the course of the new drain, particularly where the new and the existing tile act together to provide the necessary capacity. Where any such existing tile is disturbed or damaged the Contractor shall perform the necessary correction or repair at his expense.

T.4. LAYING

The tile is to be laid with close joints and in regular grade and alignment in accordance with the plan and profile drawings. The Contractor is to erect cross-arm sights and use a boning rod in the laying of the tile. The tiles are to be bevelled, if necessary, to ensure close joints. Rather than bevelling the tile on sharp bends, the Contractor may wrap the wide joints with a 6" wide band of 15 pound felt building paper. The inside of the tile is to be kept clear when laid.

Where soil conditions warrant, the Engineer may require that the tile be wrapped with a fibreglass wrapping such as Tile Guard Felt, manufactured by Globe Glass Saturaters or approved equal. Any such work shall be considered as an extra to the contract. The Contractor shall submit with his tender the extra cost for wrapping the tiles, if required.

The sides of the tile are to be supported by partial filling of the trench prior to inspection by the Engineer. The remainder of the excavated material shall be used to restore and maintain the natural surface of the ground.

No tile shall be backfilled until inspected by the Commissioner or Engineer unless directed otherwise by the Engineer.

The tile shall be backfilled such that a sufficient mound of backfill is placed over the trench to ensure that no depression remains after settling occurs in the backfill.

T.5. LOWERING OF SURFACE GRADES

Where required, the Contractor shall strip off the top layer of earth in order that the tiling machine may trench to the correct depths. His tender price shall include the cost of stripping the topsoil, bulldozing of subsoil to depth required and subsequent replacing of subsoil and topsoil.

T.6. TRIBUTARY DRAINS

Any tributary tile encountered in the course of the drain is to be carefully taken up by the Contractor and placed clear of the excavated earth. If the tributary tile drains encountered are clean or reasonably clean, they shall be connected into the new drain. Where existing drains are full of sediment, the decision to connect or not to connect to the new drain shall be left to the Engineer or Commissioner. The Contractor shall be paid for each tributary drain hook-up as outlined in the tender form. Where the Contractor is requested by the Engineer or Commissioner to hook up an existing tile which is not encountered in the course of the drain, the cost of such work shall constitute an extra and the basis of payment shall be determined by the Engineer or Commissioner subject to the provisions of Section G.7.

The method and materials proposed for the connection are to be approved by the Commissioner or Engineer.

T.7. OUTLET PROTECTION

Corrugated metal pipe shall be used to protect the tile at its outlet. The joint between the metal pipe and the field tile shall be sealed with mortar. A sacked concrete protection, unless otherwise specified, shall be built around the corrugated pipe and extended downstream a minimum distance of three feet. The protection shall extend to the top of the backfilled trench and below the pipe to 12' under the streambed. The protection shall also extend 2 feet into undisturbed soil on either side of the backfilled trench. Where the outlet occurs at the end of the open ditch the above sacked concrete rip-rap protection will extend all around the end of the ditch and to a point 3' downstream on either side. Where heavy overflow is likely to occur, sufficient additional rip-rap shall be placed as directed by the Engineer to prevent the water cutting around the protection. A concrete structure may be required to protect against heavy overflow if so indicated on the drawings

in the report. The corrugated metal pipe shall have a hinged metal grate on the outlet end to prevent the entry of small animals. Maximum spacing between bars shall be two inches.

T.8. CATCHBASINS

Catchbasins shall be constructed, using a minimum 3,000 p.s.i. concrete with inside dimensions 2 feet square, walls and floors 6 inches thick and the bottom 18 inches below the invert of the tile or the catchbasins may be constructed of a 2 foot diameter concrete sewer pipe placed on a 6 inch slab of concrete. The catchbasin top shall be a substantial iron grate, easily removable for cleaning. Precast catchbasins and manholes may be used if prior approval is given by the Engineer. Minimum wall thickness permitted for catchbasins without reinforcement is 6" and with reinforcement is 4", provided that either is acceptable to the road authority. Where a catchbasin is located on a road allowance, the type of catchbasin and grate to be used and its proposed elevation shall be approved by the Engineer, or the Road Superintendent. Catchbasins may be offset from the drain, where practical and shall have 8 inch concrete tile or metal pipe leads. Catchbasin leads shall have a minimum of 24 inches of cover.

Catchbasins located on highways shall be the M.T.C. type Standard DD-702 or the M.T.C. precast type Standard DD-711. The catchbasin top shall be the M.T.C. Standard DD-706. (If required, contact the engineer for the applicable standards.) Standard DD-716-A shall apply for ditch-inlet catchbasins.

All catchbasins located on Highways, County Roads and Township roads shall be backfilled with porous backfill placed to a minimum thickness of one (1) foot on all sides. The backfill material shall be satisfactorily tamped. If settling occurs after construction, the Contractor shall supply and place sufficient granular material to maintain the backfill level flush with adjacent ground as part of the contract.

Where rip-rap protection is called for at any catchbasin location, the rip-rap shall be sacked concrete and shall extend a minimum distance of 12" away from the outer edge of each side of the catchbasin, and shall be placed so that the finished surface of the rip-rap is flush with the existing ground.

Unless otherwise noted the tops of all standard catchbasins shall be 6" above adjacent normal ground levels.

T.9. BRUSH, TREES, DEBRIS, ETC.

The contract is to include the removal of all excavation of whatever nature, disposal of materials, removal and cutting of all brush, supplying of all labour and completing the whole work in accordance with the plan, profile and this specification. Any trees, necessarily removed, are to be brushed and left for the owner of the property on which they are found. All brush, limbs, etc. are to be put in piles by the Contractor and left for disposal by the owner. Where, in the opinion of the Engineer the drain or proposed location of the drain is heavily overgrown with small trees and brush, the Contractor may use a bulldozer or other such equipment to clear a minimum width of 100 feet. The resulting debris shall be placed where directed by the Engineer and left for disposal by the owner. Where roots may interfere with the new drain all such roots shall be grubbed and placed in a pile convenient for disposal by the owner. No additional payment will be made for such work.

T.10. QUICKSAND

The Contractor shall immediately contact the Engineer or Commissioner if quicksand is encountered. The Engineer or Commissioner shall direct the Contractor to lay the tile on plank or to construct a temporary open drain to lower the water table, or to lay the tile on a crushed stone mat, or to take such other action as may appear to be necessary. The basis of payment for such extra work shall be determined by the Engineer or Commissioner.

T.11. ROCK

The Contractor shall immediately contact the Engineer or Commissioner if boulders of sufficient size and number are encountered such that the Contractor cannot continue trenching with a tiling machine. The Engineer or Commissioner may direct the Contractor to use some other method of excavating to install the drain. The basis of payment for such extra work shall be determined by the Engineer or Commissioner.

T.12. ROADS

On any road crossing the contractor may use original ground as backfill to within 24 inches of finished grade only if adequate compaction is obtained and if the use of original ground backfill has been approved beforehand by the affected road authority.

When imported backfill is used, the excavated ground being replaced shall be disposed of within the right-of-way as directed by the road authority. If it is necessary to haul any material to another site additional payment will be allowed.

For further specifications for roadway crossings refer to specification G.13.

T.13 JUNCTION BOXES

Junction Boxes shall be constructed of concrete mixed one part cement to five parts clean pit run gravel. The sides, bottom and top shall be four inches (4") thick. The inside dimensions of the box shall be a minimum of one foot by one foot wide and one foot high but in no instance shall they be less than four inches larger than the diameter of the largest tile being connected.

T.14. RECOMMENDED PRACTICE FOR CONSTRUCTION OF SUBSURFACE DRAINAGE SYSTEMS

The report of the Ontario Farm Drainage Association, Construction Standards Committee, of January 1972, and its amendments, dealing with the construction of Subsurface Drainage Systems, Sections 4 to 12 inclusive, shall be the guide to all methods and materials to be used in the construction of tile drains except where superseded by other specifications of this contract.

SCHEDULE

MEMORANDUM OF INTENT

Entered into as of the 15th day of November, 1976.

AMONG:

HER MAJESTY THE QUEEN in right of the Province of Ontario, as represented by the Ministry of Government Services (the "Ministry");

— and —

THE CORPORATION OF THE CITY OF TORONTO (the "City");

— and —

TORONTO HOSPITALS STEAM CORPORATION ("HSC");

— and —

TORONTO ELECTRIC COMMISSIONERS ("Toronto Hydro");

— and —

THE GOVERNING COUNCIL OF THE UNIVERSITY OF TORONTO, a corporation continued by special Act of the Province of Ontario (the "University").

PREAMBLE

The parties to this Memorandum of Intent (the "Memorandum") have been involved over the past two years in a discussion of the recommendations pertaining to the integration of the steam plants and distribution systems owned and operated by the Ministry, HSC, Toronto Hydro and the University (hereinafter collectively referred to as "the Participants") in the City of Toronto as set forth in the District Heating Study (the "Study") dated December, 1973. Throughout the course of their deliberations the Participants have considered the benefits that may be derived from integration through the improvement of the environment, the orderly phasing out of the Pearl Street plant of Toronto Hydro, the construction of a new steam plant by or on the direction of the City which will in part be refuse-fired (the "New Plant"), and the ability of an integrated system to conserve and utilize available fuels more effectively than could be done by the Participants operating separately.

In working towards integration the Participants have reviewed the alternatives set forth in the Study and it has been accepted in principle that once the New Plant is on line and refuse is available to fire it throughout the year it would be desirable to use the New Plant as the base plant for the integrated system, at which time a utility would be required to operate the integrated system and all of the steam plants supplying steam to it. The concept of a strong operating utility with qualified management has been expressed as a necessity in the Study and by at least two of the Participants; however, in the initial stages the University has expressed the preference of entering into trading arrangements with the utility.

In reviewing the status of each of the Participants the uniqueness of HSC as a separate corporate steam utility with outstanding contractual arrangements under its Trust Deed dated the 15th of December, 1972 and

with its institutional customers and the Ministry of Health became apparent along with the desire to retain such arrangements in place, if possible.

PROPOSAL

1. Based upon the foregoing, it is proposed that HSC be designated as the operating utility and that it proceed to acquire by purchase or lease the distribution systems of Toronto Hydro and the Ministry and that it enter into a trading agreement with the University until such time as the University becomes a full participant. The trading agreement with the University will permit HSC to purchase steam which is excess to the requirements of the University from the University at the University's cost of manufacture plus a small profit element but without including in such costs any provision for debt servicing.

2. Until such time as the constating documents of HSC have been amended to reflect its status as the operating utility a management committee will be established to be composed of nominees of the Participants and the City and such other government bodies or organizations as the Participants may from time to time determine.

3. The cost of integration will be paid for by the City. The construction of the integration of the existing systems will be under the direction of the Commissioner of Public Works who will consult with the management committee and obtain from it such approvals as may be required from time to time.

AGREEMENT IN PRINCIPLE

The Participants do hereby express their agreement in principle to the integration of their respective steam systems in the manner referred to above and undertake to work towards the preparation of a definitive integration agreement and protocol.

CONDITIONS

Without limiting the right of any Participant to require any additional terms or conditions to be included in the definitive integration agreement or the legislation that will serve to authorize, create and define the "Integrated System" and the rights and obligations of the Participants therein, it is agreed or acknowledged that:

- (1) the Ministry of the Environment has required Toronto Hydro to prepare and implement a program of compliance with respect to the Pearl Street plant and in order to meet the requirements of the City such program will involve the ultimate phasing out of the operations of the Pearl Street plant;
- (2) the hospitals that are the customers of HSC must be assured of a continuance of supply of steam throughout the year and must also be assured of a source of supply that will meet any additional requirements they may have in the future as a result of the expansion or modification of any of their existing facilities;
- (3) all enabling legislation and all required approvals and financial commitments of those Ministries of the Provincial Government, City Council, Metropolitan Council and the Ontario Municipal Board must be obtained; it is further acknowledged by the Participants that the obligation to be assumed by the City under the definitive integration agreement must be authorized by an appropriate statute of the Legislature of the Province of Ontario

and that the Ministry of Health must approve supplemental funding to cover any increase in the cost of steam supplied to user hospitals as a result of integration;

- (4) the economic feasibility
 - (i) of the Integrated System,
 - (ii) the New Plant, and
 - (iii) the unit cost of steam to be distributed through the Integrated System

is to be established to the satisfaction of all Participants after due consideration of the existing and anticipated fuel supplies;
- (5) the City is to be able to provide to the Participants and to the Integrated System assurances or guarantees of financing, completion and performance which are reasonable in the circumstances;
- (6) all ancillary approvals and consents to the use of HSC as the utility must be obtained and on terms and conditions acceptable to HSC and the parties to the Steam Supply Agreement made as of the 15th day of December, 1972 between HSC and the four hospitals named therein;
- (7) suitable arrangements are to be made with respect to the repayment or assumption of the net outstanding debt of the District Steam Utility of Toronto Hydro at the time the distribution system of Toronto Hydro is acquired by HSC;
- (8) arrangements satisfactory to the Participants are to be made for the utilization by HSC or the New Plant of the personnel employed by the Ministry and Toronto Hydro in their respective steam utility systems at the time the distribution system of each of the aforementioned Participants is acquired by purchase or lease by HSC.

* * * * *

By signing this Memorandum each of the parties hereto does hereby undertake to use its best efforts consistent with its own interests to perform or obtain compliance with the conditions herein set forth and any other conditions that may arise to the extent that it is within the reasonable capability of such party and will not prejudice any such party by so doing.

In order to facilitate the immediate formation of a management committee each of the parties will provide the chairman of the Integration Committee with the name of its representative on the management committee forthwith after the execution of this Memorandum, and each Participant shall be entitled to representation on the management committee. The management committee shall have power to enlarge its membership by the addition thereto of representatives from other organizations and ministries of the Province and by permitting any entity represented on the management committee to have more than one individual representing it.
